Rejections based on Prior Art

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Chaiken et al (US 2,744,326).

Chaiken et al disclose a two piece crown assembly comprised of a coping member 10 and a prefinished anatomy 22 sized to conform to an unfinished portion of the coping (note particularly Figure 10). Chaiken et al further discloses means for securing the two pieces together (column 3, lines 33-36).
